Turkey's First and Only
Laboratory Sector and
Advertising Channel

/ 2019

LabMedya[®]

Why Labmedya ?

We want to summarize the first and only publication in your sector.

We would like to summarize to you the first and only publication in Turkey Laboratory sector.

LabMedya, as can be understood from its name, is a publication which has been serving as a media channel in laboratory sector for approximately 9 years and which is followed with a huge interest and curiosity. It has become a publication each issue of which is looked forward to as its contents cover completely independent, free and sectoral issues. It is published 13.000 issues every two months in glossy and each page

being colored. Our publication is mailed to the name of the person directly by mail as a free of charges.

In addition, our publication can be read online and interactively through our web page and mobile application. Also soft copies are sent via e-mail to approximately 30.000 people in the sector which are in our mail bank.

To sum up, the number of people which we reach is over 40.000 in total.

LabMedya, which is also popular in social media is followed more and more every day.

In our Facebook page, current news about sector, science, health and technology are posted nearly every day and attract huge attention.

Our vision is to become a publication which will attract attention of people, which will be read and each issue of which will be looked forward to in all terms. In this context, our content and design are prepared in a way to attract people's attention and not to bore people. Our aim is to reach every laboratory and everybody related with laboratory sector in Turkey and Turkish Republics.

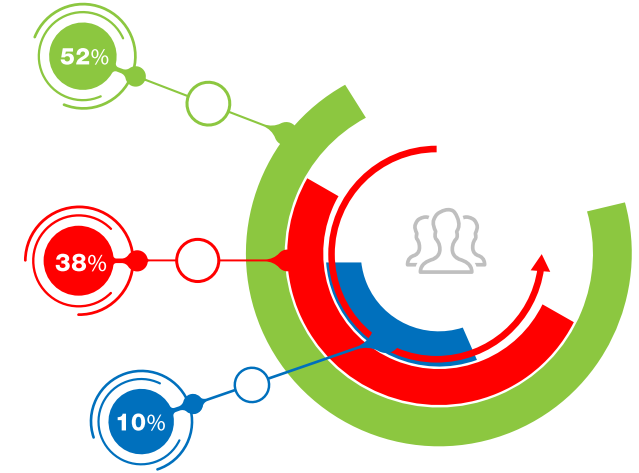

General Distribution Chart

Our target audience is laboratories, industry firms and individuals who work here. Labmedya is completely free and is sent to all cities in Turkey. These are mainly:

-  Universities with the relevant sections of the laboratory (chemistry, food, biology, environment, physics, Medicine and Pharmacy (histology, microbiology, biochemistry, pharmaceutical chemistry and etc. departments, deaneries, chief physicians, purchasing etc.), faculty members and laboratories
-  Public institute laboratories (Public health control, environment, reference and agriculture, food quality laboratories)
-  Factories with quality control laboratories
-  Special references laboratories
-  Sector Companies (Chemical, lab equipment, device vendors of medical companies etc.) and many other persons concerned ...

 Labmedya, participate in many exhibitions at home and abroad, and is followed.

Mobile Application & Digital Platforms

As LabMedya, we have made our way into Mobile Application and Tablet Publication by following the developing technologies. In tablets or smart phones, LabMedya can be read more interactively and in a more detailed way. Also we make your advertisement or product presentation to users downloading the application through push notifications which means instant messages.

Through your mobile application, you can promote your special activities, special product groups, campaigns, news etc to users via push notifications.

Also you can attach video or link to your hard copy advertisement in the application. For example, the user examining your advertisement can see the product presentation video. you can make them order or examine the product in a more detailed way by directing them to your web site.

Advertisement alternatives for this service:

L - Push Notifications

M - Interactive Modules

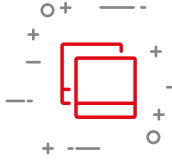

In addition, if you wish, you can be one-year application sponsor. That you are a sponsor is indicated at opening and product presentations special for you are added.

N - Sponsorship

You can also access LabMedya from other digital platforms below.
